

Final discussion

- Discussion is open, but some suggestions:
- The present workshop
 - Topics
 - Which were useful – what have you learnt?
 - User-oriented
 - Tools
 - Uncertainty
 - Spatial
 - Seasonal
 - What was missing?
 - Ensembles
 - What else?
- The future ...

Discussion – the future

- If there is a 5th workshop ...
 - What topics should it emphasise (of course new topics may become ‘hot’ before then)?
 - Format
 - Tutorial + research?
 - Other aspects?
- Comments now but also later to anna.ghelli@ecmwf.int
- More generally, what else should the Working Group be doing?
- Presentations to be put on the website – is everyone happy with this?
